## **Product information**

# Marine Single Grade SAE 30

#### **Description**

Single-grade mineral motor oil for gasoline and diesel engines with a naturally high viscosity index. It provides for a stable lubricating film even under extreme operating conditions. Its high alkaline reserve prevents corrosion even when diesel fuel with a high sulfur content is used. Lightly doped for use in classic engines as well. Prevents sludge formation and offers reliable protection against wear.

### **Properties**

- universal application
- high wear resistance
- can be used in gasoline and diesel engines with and without turbocharger
- high lubrication reliability
- optimum stability to aging

#### **Specifications / Approvals**
