3M GOGGLE GEAR 500 CLEAR PC SCOTCHGUARD AF COATED LENS

3M Goggle Gear Safety Goggles 501 have a low profile design, an adjustable headband and optional prescription insert. The goggle is available with a 3M Scotchgard Anti-Fog Coating which resists fogging longer than traditional anti-fog coatings. Modern slim-line and lightweight design for an excellent fit. Easy-to-adjust elastic Nylon headband for stable and comfortable wear. Pivoting ratchet for convenient personal adjustment. 3M Scotchgard Anti-Fog Coating provides superior anti-fog and anti-scratch properties, complying with K and N marking requirements of EN166. Coating retains its effectiveness even after multiple washes, can be disinfected with diluted bleach soaking or alcohol wipes without losing its anti-fog performance. Special 3M Goggle Gear prescription insert available. Offers excellent protection against UV radiation.

3M 4000 SERIES ORGANIC VAPOUR & PARTICULATE RESPIRATOR

3M

The 4000 Series Half Masks are a range of respirators with integrated filters, designed for effective and comfortable protection against many gases, vapours and combinations of particulate hazards found in the Marine industry. The large carbon filters offer low breathing resistance.

Product Codes

- 3M 4251 ORGANIC VAPOUR & PARTICULATE 3M-4251
- FFA1 P2 RESPIRATOR
- 3M 4255 ORGANIC VAPOUR & PARTICULATE 3M-4255
- FFA2 P3 RESPIRATOR

3M 6000 SERIES LOW MAINTENANCE

3M

These masks are designed for effective and comfortable protection against many gases, vapours and combinations of particulate hazards found throughout the Marine industry when used in conjunction with the relevant bayonet filters. The wide range of particulate, gas and vapour and combination filters offer flexibility as well as being cost effective.

Product Codes

- 3M 6000 SERIES LOW MAINTENANCE HALF MASK MEDIUM 3M-6200M
- 3M 6000 SERIES LOW MAINTENANCE HALF MASK LARGE 3M-6300L

3M 7500 SERIES SILICONE HALF MASK

3M

The 7000 series re-usable masks have fully replaceable parts for maximum durability and quality. These respirators incorporate the 3M Bayonet connection system enabling a wide range of filters to simply click into place.

Product Codes

- 3M 7500 SERIES SILICONE HALF MASK MEDIUM 3M-7502
- 3M 7500 SERIES SILICONE HALF MASK LARGE 3M-7503

3M 6500 SERIES REUSABLE HALF MASK RESPIRATOR

3M

Reusable Half Face Mask 6500 series is designed with tough and dirty work environments in mind. Stay productive and protected the 6500 Series delivers comfort, durability and stability with a firm, lightly textured silicone face seal and strong body construction. With Quick Latch drop down mechanism for easy on and off as wearers move in and out of contaminated areas. No need to remove your safety helmet or faceshield when lowering or raising your respirator. 3M reusable respirator with quick latch drop down mechanism for easy on and off as wearers move in and out of contaminated areas. No need to remove your safety helmet or faceshield when lowering or raising your respirator. Resilient silicone face seal helps provide comfort, durability, and stability with a soft but firm seal. Exhalation valve cover helps direct exhaled breath and moisture downward to reduce fogging of eyewear and grinding and welding shields. Low profile half facepiece design offers a wider field of view and better compatibility with welding and grinding shields. 3M Cool Flow Valve provides easier breathing and reduced heat and moisture build-up. Adjustable head harness assembly offers improved fit and comfort. Bayonet connection fitting system to a broad range of filters to protect against gases, vapours and particulates.

TYVEK PAPER COVERALLS

Superior Type 5 and Type 6 protection DuPont Tyvek Classic Xpert. Drawing on decades of experience in the field, the Tyvek Classic Xpert garment offers enhanced protection against a range of threats, from water-based chemical liquid splashes, asbestos, pharmaceutical and radioactive particulates to biological hazards. Its fabric offers a barrier to permeation by liquids when tested according to EN ISO 6529 Method A, performed on white Tyvek fabric. It passes the new and more stringent Type 6 test method and demonstrates greater protection when tested according to the whole suit Type 4 spray test (EN ISO 17491-4 method B). Moreover, Tyvek Classic Xpert sets a new standard in particulate protection, with only 0.8% whole suit inward leakage compared to 5% with Tyvek Classic and to 8% with a typical Microporous Film (MPF). The excellent design and overall ergonomic shape of the garment ensures a perfect fit and protection whilst moving, across a whole host of applications.
