MIRKA DEROS 625CV ORBITAL SANDER

MIRKA

Mirka Deros 625CV direct electric random orbital sander is equipped with a 150 mm pad and has a 2.5 mm oscillation. Mirka Deros 625CV is the first ever electric sanding machine with a brushless motor and no external power supply. The mains voltage is 220V - 240V. It is also the lightest electric machine on the market and suitable for general sanding purposes on almost all kind of surfaces. Mirka Deros 625CV has a soft start function, a built in electronic motor brake and a smooth, easy to operate lever to control motor speed.

Product Codes

Spray Guns

GRACO AIRPRO CONVENTIONAL GRAVITY GUN

GRACO

The AirPro air spray gun delivers exceptional spray performance while addressing your environmental and operator concerns - whether you're a custom shop or a high volume manufacturing facility. Optimize spray performance with our cutting edge aircap and nozzle design. Choose from a wide range of gun models to meet the needs of your specific application. Maximize operator comfort with our lightweight design, low trigger force and ergonomic handle. Reduce maintenance and downtime with fewer gun parts AirPro.

Product Codes

GRACO AIRPRO CONV. GRAVITY GUN WITH CUP GO-289011 1.4MM
 GRACO AIRPRO CONV. GRAVITY GUN WITH CUP GO-289012 1.8MM

Accessories

GRACO AIRPRO NEEDLE AND NOZZLE KIT

GRACO

Available in 1.1mm and 1.4mm for topcoats and 1.8mm for Primers, the Stainless Steel needle comes with Graco unique interchangeable nylon tip which stops any wear on nozzles.

Product Codes

GRACO AIRPRO NEEDLE AND NOZZLE KIT 1.1mm GO-289460

 CONVENTIONAL GUN 1.2mm
 DEVILBISS GRAVITY GUN STAND (L GUN) FB-GFV-50-F

DEVILBISS DIN 4mm VISCOSITY CUP

DEVILBISS

Used for the accurate reading of paint thickness. The best way to determine the best mix for spraying. Place in the pot of mixed paint and take draining time. Consult with your paint manufacturer's technical data sheet (TDS) for more information.

Product Codes

DEVILBISS DIN 4mm VISCOSITY CUP PK2 FB-7000-114-K2

DEVILBISS GUN CLEANING BRUSHES

DEVILBISS

Ideal for a variety of gun cleaning jobs tough resilient bristles for useful service. Suitable size for cleaning most parts of the gun.

Product Codes

DEVILBISS GUN CLEANING BRUSHES PK3 FB-4900-5-1-K3

DEVILBISS GRAVITY CUP KIT

DEVILBISS

DeVilbiss gravity feed cups are made of strong, lightweight acetal. In addition, an integral drip check in the cup lid virtually eliminates leaks from the vent hole.

Product Codes

DEVILBISS GRAVITY CUP KIT FB-GFC-501

DEVILBISS PRO SPRAY GUN CLEANING KIT

DEVILBISS

Multipurpose professional kit suitable for all spray guns. Includes a comprehensive range of brushes and tools. The cleaning kit can be easily hung in the gun cleaning area. The kit includes cleaning instructions and spray gun oil.

Product Codes

DEVILBISS PRO SPRAY GUN CLEANING KIT FB-KK-4584

DEVILBISS INLINE FILTER FOR GRAVITY C-SPRAY/ADV HD

DEVILBISS

Replacement gravity cups filters for GFC cups. Effectively removes dirt, flakes and scum keeping the finish blemish free. The filters are resistant to most solvents - easily cleaned.

Product Codes

DEVILBISS IN-LINE AIR PRESSURE GAUGE & REGULATOR

DEVILBISS

The Devilbiss air pressure gauge and regulator fits neatly in-line at the gun air inlet, it increases or decreases the working pressure at the gun. Its calibrated up to 11 Bar (160 psi).

Product Codes

DEVILBISS IN-LINE AIR PRESSURE GAUGE & FB-HAV-501-B
REGULATOR

AC belt drive series: solid tradition: AC series oil-lubricated compressors are designed with a slow-running compressor block for exceptional long service life. Cast iron cylinders with low-speed pistons have traditionally been recognized for their durability. Slow-running compressor block with after cooler for effective moisture separation and automotive dry paper type air cleaner on the larger models. Adjustable pressure regulator, pressure gauges (receiver pressure and regulated outlet pressure), quick coupling for ease of use.

INDASA E SERIES RANDOM ORBITAL SANDER 150M

Indasa has developed a high performance electric orbital palm sander. The Advanced E-Series brushless motor technology and innovative composite engineering combine to maximise sanding performance and operator comfort. The ergonomic, compact and lightweight design houses the 350W power drive out runner motor and delivers minimised levels of noise and vibration. The preset variable speed regulator provides the operator with fingertip and total control whatever the sanding application.

Product Codes

INDASA E SERIES RANDOM ORBITAL SANDER 150M IND-579138

Polisher

INDASA ELECTRIC ROTARY POLISHER

The new angle polisher from Indasa. The most efficient way to cut through to the shine. With variable speed regulator for fingertip control, soft start control and drive shaft lock. A powerful 1,100 watt motor housed within durable insulated casing, optimised power delivery through double gear reduction across the speed range and a ergonomic grip for comfort and safe handling.

Product Codes

INDASA ELECTRIC ROTARY POLISHER IND-558829

Dust Extractors

INDASA MOBILE VACUUM UNIT

The new powerful dust extraction vacuum unit from Indasa. Maximise the efficiency of your Rhynogrip sanding system and deliver a cleaner working environment. With its compact design and its fully portable throughout the bodyshop. It has a storage point on the rear for convenient access to cables and accessories. A multifunctional intelligent control for manual or automatic start up. Pneumatic and electric tool operation. A self cleaning dual filtration system serves high capacity 45L dust bag. Protection Class L filter. It has a front hose connection pivot with a Y piece connector. A 5m extraction hose with integrated airline and lockable wheel chassis for stable positioning and operation.

Product Codes

INDASA MOBILE VACUUM UNIT IND-558775

TQC VISCOSITY CUP

The TQC Viscosity Cup DIN 53211 Immersion is a titanium anodized aluminium viscosity cup with fixed stainless steel 4mm nozzle and handle. Ideal for measuring coatings and other fluids during application or production.

Product Codes

TQC VISCOSITY CUP DIN53211 C/W FIXED NOZZLE TQC-VF2073 4MM

Scrapers & Blades

PPS Paint Preparation System

3M PPS SEALING CAPS

The original innovative system from 3M that enables painters to mix less paint and drastically reduces the amount of solvent and technician time required for gun cleaning, improving operator efficiency by as much as 15%.

3M delivers all 3 with the PPS™ Paint Preparation System. Make your job easier with this innovative system that increases efficiency by eliminating the need for traditional mixing cups and paint strainers.

Unlike traditional spray cups, paint is mixed and sprayed out of the same PPS™ liner with a lid and built-in filter. Specifically designed adapters allow painters to use the PPS™ system with virtually any spray gun.

A key advantage of this closed system is that it enables a painter's spray gun to function at any angle, even upside down! Safe from outside contamination, the PPS™ system offers a cleaner, more efficient solution for all repairs from small spots to large surfaces.

Enhance your quality, reduce solvents, minimise waste, maximise productivity and make your job easier with the revolutionary 3M™ PPS™ Paint Preparation System - now in a comprehensive range of size options allowing precise, accurate coverage.

Key benefits of using the 3M™ PPS™ Paint Preparation System:

- Only one PPS™ cup for mixing and spraying
- Enables painters to mix less paint
- Up to 70% saving of cleaning solvent
- Closed system - no outside contamination
- Faster system - from mixing to disposal
- Less operator exposure to solvents and reduction in VOCs
- Spray gun functions at any angle

PPS Adaptors

3M PPS ADAPTOR

3M PPS Adapter converts paint spray guns for use with the 3M Paint Preparation System (PPS). Specifically designed adaptors, allows Painters to use the PPS with virtually any spray gun model. To use this adapter, remove the existing spray gun cup. Then simply thread the correct PPS adapter into the Spray Gun.

3M PPS adapter converts leading commercial spray guns into ones that can use the 3M Paint Preparation System (PPS), save workers time in the preparation of paint materials: measuring,

mixing, and filtering of paint materials. PPS is a all in one disposable painting system that produces cleaner jobs, saves on paint consumption, reduces solvent usage by up to 70%, and improves the operator's efficiency by up to 50% between the prep (mixing, measuring, and filtering) and clean up time (time associated with cleaning the paint reservoir and spray gun). Specifically designed PPS stainless steel metal adaptors allow painters to use the PPS system with virtually any spray gun. To use the PPS adapter, remove the existing spray gun cup. Then simply thread the correct PPS adapter into the Spray Gun.
